

Aesthetics valued

WHAT a relief, our Premier, Will Hodgman has finally realised why Tasmania is so loved by locals and interstate and overseas visitors. I was pleased to hear and then see him speak about the Fragrance Towers not being, in his opinion, appropriate for Hobart's amenity, aesthetics or quality of life.

So as a community representative of his electorate, I am asking the Premier to please step in and stop the inappropriate overdevelopment by foreign development company Chambroad in Kangaroo Bay, Bellerive from proceeding. These two 20-metre high buildings will ruin, forever, Bellerive's amenity, aesthetics and the quality of life in our community.
